EXEC BOARD UPDATE	GIVEN BY
Dave M read the September treasurer's report.	Dave M
Wearables – everyone should be wearing them. We need to move some product. We have a lot of shirts and hats available in a variety of sizes.	John G
Recap from the September Exec Board meeting (see those meeting minutes on our web site).	Steve D
When people are bringing their planes back in, they're bringing them straight in and killing the engine. They are supposed to pull in their planes parallel to the flight line and kill their engine in case there is a radio glitch or other issue. Bill wanted to remind the members that this is essential for safety and part of being a AMA Gold Leader club we are required to read the safety code to the membership at a meeting annually.	Bill R
Steve suggested getting a program together for a future meeting.	
John G. had a question as to whether or not the food at meetings should continue and whether it was a bigger draw than the kit raffle. The general consensus was that the kit raffle would be a bigger draw.	John G
Hank – has a job coming up and he'll have about 100 railroad ties like the ones we have around the field. He thinks it would be a good idea to run the railroad ties along the road to keep the snowmobilers out. We have had problems with snow mobilers drag racing on the field in the past.	Hank W
Dale would also like to run some ties along the south side of the field to help with the event parking situation.	
Steve asked Hank to bring the issue to the next executive board meeting and we would come up with a plan.	
PROGRAMS	GIVEN BY
No programs and no flying on account of rain.	
ANNOUNCEMENTS	

50/50 RAFFLE WINNER	Bill R - \$12
RAFFLE WINNER	No raffle held
ADJOURNED	8:03 pm
